Station  
(DOTFAS Certificate)**

| <b>Station Name</b>               | <b>Station Address</b>                          |
|-----------------------------------|---|
| Phoenix Fire Protection           | 54 Worraker Street, Newton Park, Port Elizabeth |
| <b>Designated Person</b>          | <b>ID no. of Designated Person</b>              |
| Mr John Caird                     | 510307 5657 186                                 |
| <b>Date of initial inspection</b> | <b>Approval / Accreditation Date</b>            |
| 07th December 2012                | 25th July 2016                                  |

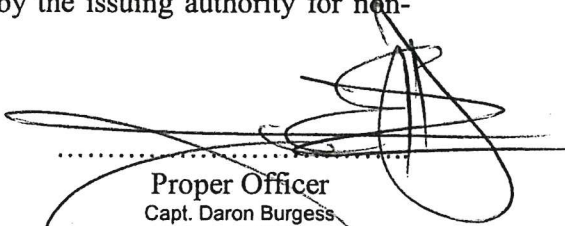

This is to certify that:

The above-mentioned station has been inspected and assessed in accordance with the requirements as set out in the DOTFAS Code.

Under Section 4.5 of the DOTFAS Code, only the following functions may be carried out, in terms of this accreditation, by the above-mentioned station:

- Y Pressure Testing of Low Pressure Cylinders only.
- N Pressure Testing of High Pressure Cylinders except Cartridges.
- Y Servicing of Portable Extinguishers (Water, Dry Powder, CO<sub>2</sub>)
- Y Pressure Testing and Maintenance of Fire Hoses.
- Y Installation and Maintenance of Fixed Fire Detecting and Extinguishing Systems and Alarm Systems
- Y Servicing of Breathing Apparatus (Subject to accreditation of Sub-contractor).
- Y Filling of Breathing Apparatus Sets (Subject to accreditation of Sub-contractor).

This Certificate and the Accreditation is valid for One Year subject to meeting the requirements of the Code. This Certificate may be withdrawn at any time, by the issuing authority for non-compliance with the Code.
